**RE: Peterson/Puritan, Inc. Superfund Site
International Paper's Response to 104(e) Information Request**

Dear U.S. EPA Records Center:

This letter is written on behalf of International Paper Company in response to the CERCLA Section 104(e) Information Request (the "Request") contained in James T. Owens's February 4, 2009 letter to Camile A. Corbin¹ regarding the Peterson/Puritan, Inc. Superfund Site, Operable Unit 2 (the "Site"). International Paper is responding to the Request based on its current knowledge after due inquiry and reserves the right to supplement this response if additional responsive information is discovered in the future. U.S. EPA previously sent International Paper a June 17, 2004 information request regarding the Site, to the extent that information contained herein is responsive this Response also serves to supplement International Paper's response to that previous request. International Paper again thanks U.S. EPA for extending the initial response deadline for the Request.

¹ Please note that Camile Corbin is no longer with International Paper. Please direct future correspondence regarding this site to me.

General Objections

International Paper objects to the Request to the extent that it seeks information protected by the attorney-client privilege or the attorney work product doctrine. International Paper objects to the Request to the extent that it is unduly burdensome, unreasonably broad and seeks information that is not reasonably relevant to Site, to International Paper's potential liability at the Site, or to the liability of potentially responsible parties. International Paper objects to the Request to the extent that it calls for the creation of new documents.

International Paper objects to the Request to the extent that it assumes as fact assertions that have not yet been established as true. In particular, International Paper objects to the use of and reference to any alleged statement of an unidentified "driver" to the extent that driver's statements purportedly implicate International Paper or any of its corporate predecessors. International Paper objects to U.S. EPA's characterization of the document attached as Attachment No. 1 to the Request as a "summary" of anything.

International Paper objects to the Request to the extent that it solicits information regarding facilities or former facilities that are geographically remote from the Site and that have not been implicated in any documentation relating to the Site or any driver statements regarding the Site. As described in more detailed below, Allied Container Corporation ("ACC") operated four facilities: Dedham, Mass., Boston (Hyde Park), Mass., Newtown, Conn., and Auburn, ME. The former ACC Dedham facility is located less than 40 miles² from the Site and has been identified in a "driver statement" as the location of the ACC facility that may have sent waste to the Site (See Attachment No. 1 to the Request.) The former Hyde Park facility is located less than 60 miles from the site and was sold by ACC in 1957. The former ACC Newtown facility is located approximately 150 miles southwest of the Site and has not been implicated at the Site. The former ACC Auburn facility, which is currently an operating International Paper manufacturing site, is located approximately 150 miles north of the Site and has not been implicated at the Site. Despite the fact that only the relatively nearby Dedham facility has been identified as a potential generator of material disposed of at the Site, the Request solicits detailed information regarding all ACC facilities. EPA's decision to require International Paper to address in this response the three unimplicated ACC facilities, particularly those that approximately 150 miles from the site, is unduly burdensome, unreasonably broad and seeks information that is not reasonably relevant to Site or to International Paper's potential liability at the Site.

² Distances referenced in this paragraph are approximate and calculated by entering town names (Dedham, Boston, Newtown, Auburn and Lincoln) into the MapQuest online mapping service.

General Statement

As described in more detail below, in February 1957, Union Bag-Camp Paper Corporation acquired Allied Container Corporation. Union Bag-Camp Paper Corporation subsequently changed its name to Union Camp Corporation ("UCC"). At the time of the 1957 transaction, ACC-MA's plant was located on Hyde Park Avenue in Boston, but was preparing to transition to the newly constructed Dedham, Mass. Facility. ACC completed its Dedham facility in 1958 and opened its Newtown facility in 1970. ACC began operations at its Auburn facility in 1974. UCC operated ACC as a division of UCC from 1957 through approximately 1986, at which point the three ACC facilities either were folded into UCC (Auburn and Newtown) or closed (Dedham). International Paper Company acquired UCC in 1999.

As a result of these transactions, any CERCLA liability attributable to ACC at the Site is now a liability of International Paper Company. It should be noted, however, that International Paper has never done business as Allied Container Company.

Responses to Specific Requests

International Paper's responses to the inquiries posed in the Request are contained in Attachment A to this letter. The general objections and qualifications outlined in the preceding paragraphs incorporated into those responses.

Should you wish to discuss this matter, please do not hesitate to contact me.

Sincerely,

Elton L. Parker

Attachment A

Responses to Individual Requests

International Paper responds to the individual requests as follows:

1. General Information About Respondent:

- a) Provide the full legal name and mailing address of the Respondent.

RESPONSE

International Paper Company
6400 Poplar Avenue
Memphis, TN 38197

- b) For each person answering these questions on behalf of Respondent, provide:
- i. full name;
 - ii. title;
 - iii. business address; and
 - iv. business telephone number, FAX machine number and e-mail address.

RESPONSE

Elton L. Parker
Senior Counsel - EHS & Sustainability
International Paper Company
6400 Poplar Avenue
Memphis, TN 38197
Phone: (901) 419-4724
Fax: (901) 214-5223
Email: elton.parker@ipaper.com

- c) If Respondent wishes to designate an individual for all future correspondence concerning this Site, including any legal notices, please so indicate here by providing that individual's name, mailing address, telephone number, FAX number, and e-mail address.

RESPONSE

Elton L. Parker
Senior Counsel - EHS & Sustainability

International Paper Company
6400 Poplar Avenue
Memphis, TN 38197
Phone: (901) 419-4724
Fax: (901) 214-5223
Email: elton.parker@ipaper.com

- d) State every address in Rhode Island, or within 60 miles of the Site at which Allied Container conducted business during the period being investigated.

RESPONSE

1 Allied Drive
Dedham, Mass. 02026

Hyde Park Avenue
Boston, Mass.

- Sources:
- a. See enclosed Document #1.
 - b. Union Bag – Camp Paper Corporation “closing binder” containing documents related to the “Acquisition of Stock of Allied Container Corporation February 8, 1957”.

- e) State the dates during which Allied Container conducted business at each such location.

RESPONSE

ACC operations at the Dedham facility began in 1957 or 1958. ACC operations at this facility ceased in or soon after 1986.

International Paper is unaware of the inception date for operations at the Hyde Park facility. It is apparent from transaction documents that at the time of the 1957 acquisition, ACC operations were being transitioned from the Hyde Park facility to the Dedham facility. ACC sold the Hyde Park facility to The Hicks Corporation of Boston, Mass in May 1957. While ACC leased back the Hyde Park facility for a time after its sale in 1957, International Paper is unaware of continued operations at that facility after 1957.

- Sources:
- a. See enclosed Document #1.
 - b. August 5, 1986 internal memorandum from M.I. Cowan (Union Camp) to J.F. Haren (Union Camp) relaying decision to close Allied facility at Dedham.

- c. Union Bag – Camp Paper Corporation “closing binder” containing documents related to the “Acquisition of Stock of Allied Container Corporation February 8, 1957”.
 - d. Union Bag – Camp Paper Corporation “closing binder” containing documents related to the “Reorganization of Allied Container Corporation March – May 1957”.
- f) Describe the nature of Respondent's current business, if any, at each such location, including but not limited to a brief description of the major products or services Respondent manufactures or provides.

RESPONSE

International Paper does not own and has no current business operations at the Dedham facility or the Hyde Park facility.

- g) List the Standard Industrial Classification (SIC) code for the business at each location.

RESPONSE

International Paper does not own and has no current business operations at the Dedham facility or the Hyde Park facility. International Paper is unaware of current operations, if any, at these facilities.

- h) Describe the nature of the Allied Container's business at each location during the period being investigated.

RESPONSE

From 1957 or 1958 through 1986, ACC manufactured corrugated packaging (e.g. “cardboard boxes”) at the Dedham location. International Paper is unaware of the details of ACC-MA operations at the Hyde Park facility, although they were likely similar.

Source: See enclosed Document #1.

- i) For each location, identify all surveys, studies, or collections of data for which Respondent has submitted information to local, state, federal, or private entities about its waste disposal/recycling practices.

RESPONSE

International Paper has no information responsive to this request.

2. Respondent's Legal and Financial Status:

NOTE: All questions in this section refer to the present time unless otherwise indicated.

- a) State the annual average number of persons employed by Allied Container for every five year period during the period being investigated.

RESPONSE

International Paper does not have information sufficient to calculate the annual average number of persons employed by Allied Container at any time during the period being investigated.

- b) If Allied Container has ever done business under any other name;
- i. list each such name; and
 - ii. list the dates during which such name was used by Allied Container and/or Respondent.

RESPONSE

See General Statement. Further responding, ACC was operated as a division of UCC from 1957 through 1985. The ACC corporate entity was renamed "Union Camp Business Development Corporation" on October 30, 1995 and dissolved on December 16, 2002. At the time of the 1957 acquisition, ACC-MA owned all outstanding capital stock of Shaw Container, Inc., a New Hampshire corporation having its principal business office in Peterborough, NH. International Paper is unaware of further information regarding Shaw Container.

- Sources:
- a. See enclosed Documents #1-2.
 - b. Union Bag – Camp Paper Corporation "closing binder" containing documents related to the "Acquisition of Stock of Allied Container Corporation February 8, 1957".
 - c. Union Bag – Camp Paper Corporation "closing binder" containing documents related to the "Reorganization of Allied Container Corporation March – May 1957".

- c) If Allied Container conducted current business as a corporation, provide:
- i. the date of incorporation;
 - ii. state of incorporation;
 - iii. agent for service of process;
 - iv. the names of all officers during the period being investigated;
 - v. the names of all directors during the period being investigated; and
 - vi. the names of all shareholders owning more than 5% of the Respondent's stock at any time during the period being investigated.

RESPONSE

This Request is unduly burdensome, unreasonably broad and seeks information that is not reasonably relevant to the Site or International Paper's potential liability at the Site. Further responding, in February 1957, Union Bag-Camp Paper Corporation acquired Allied Container Corporation, a Massachusetts corporation ("ACC-MA"). Union Bag-Camp Paper Corporation immediately liquidated ACC-MA into a Delaware Corporation named Allied Container Corporation ("ACC"). ACC was a wholly owned subsidiary of Union Bag-Camp Paper Corporation. ACC was originally incorporated in January 8, 1957 as Allied Container Company, Inc. but changed its name to Allied Container Corporation soon after, on March 15, 1957. Union Bag-Camp Paper Corporation subsequently changed its name to Union Camp Corporation ("UCC").

An undated ACC booklet enclosed as Document #1 identifies some ACC officers. Further responding, "D.E. Smith" was President of ACC in 1986; Jerome E. Pickney was Vice President of ACC in 1971; M.R. Hamarat was Vice President and General Manager of ACC in 1974. ACC-MA officers in 1957 included Nathan Schwartz (president), Irving Schwartz (Vice President), (William Bruckhauser, Sr. (VP-Sales), Herman Jaffe (VP-Food Packaging) and Joseph Schwartz (Treasurer). ACC-MA directors in 1957 included Nathan Schwartz, Irving Schwartz, and Joseph Schwartz.

International Paper has no additional information responsive to this request.

- Sources:
- a. See enclosed Documents #1-3.
 - b. Union Bag – Camp Paper Corporation "closing binder" containing documents related to the "Acquisition of Stock of Allied Container Corporation February 8, 1957".
 - c. Union Bag – Camp Paper Corporation "closing binder" containing documents related to the "Reorganization of Allied Container Corporation March – May 1957".
 - d. Warranty Deed relating to conveyance of the Newtown, Conn. property dated January 2, 1986.
 - e. Agreement relating to conveyance of the Newtown, Conn. property dated May 14, 1971.

- f. Agreement relating to conveyance of the Newtown, Conn. property dated July 31, 1974.

- d) If Allied Container conducted business as a partnership, provide:

- i. the names of all partners in the period being investigated; and
- ii. the type of partnership (e.g., general, limited).

RESPONSE

International Paper is not aware of any instance where ACC operated as a partnership.

- e) If Allied Container conducted business as a trust, provide:

- i. the names and addresses of all current beneficiaries;
- ii. the names of all trustees during the period being investigated;
- iii. the names of all beneficiaries during the period being investigated; and
- iv. a copy of the document which sets out the purpose of the trust and the duties and powers of the trustees (i.e., the declaration of the trust or trust agreement).

RESPONSE

International Paper is not aware of any instance where ACC operated as a trust.

- f) If Allied Container is, or was at any time during the period being investigated, a subsidiary of, otherwise owned or controlled by, or otherwise affiliated with another corporation or entity, then describe the nature of each such corporate relationship, including but not limited to:

- i. a general statement of the nature of relationship;
- ii. the dates such relationship existed;
- iii. the percentage of ownership of Allied Container that is held by such other entity; and
- iv. for each such affiliated entity provide the names and complete addresses of its parent, subsidiary, and otherwise affiliated entities.

RESPONSE

See General Statement. Further responding, after its acquisition by Union Bag – Camp Paper Corporation in February 1957, ACC operated as a division of that company, later renamed UCC, until approximately 1985. Union Bag – Camp Paper Corporation acquired all of the common stock of ACC. Prior to its

acquisition by International Paper, UCC was headquartered at 1600 Valley Road, Wayne, NJ 07470.

a. See enclosed Documents #1-5.

g) Identify relationship between Allied Container and International Paper.

RESPONSE

See General Statement. Further responding, International Paper is a corporate successor to ACC.

h) If Allied Container no longer exists as a legal entity because of dissolution provide:

- i. a brief description of the nature and reason for dissolution;
- ii. the date of dissolution;
- iii. documents memorializing or indicating the dissolution of the entity; and
- iv. a statement of how and to whom the entity's assets were distributed.

RESPONSE

The entity previously known as Allied Container Corporation was dissolved on December 16, 2002. Any assets or liabilities held by that entity at dissolution now rest with International Paper.

Sources: See enclosed Document #2.

i) If Allied Container no longer exists as the same legal entity it was during the period being investigated because of transactions involving asset purchases or mergers, provide:

- i. the titles and dates of the documents that embody the terms of such transactions (e.g. purchase agreements, merger and dissolution agreements);
- ii. the identities of the seller, buyer, and any other parties to such transactions; and
- iii. a brief statement describing the nature of the asset purchases or mergers.

RESPONSE

In February 1957, Union Bag-Camp Paper Corporation acquired Allied Container Corporation, a Massachusetts corporation ("ACC-MA"). Union Bag-Camp Paper

Corporation immediately liquidated ACC-MA into a Delaware Corporation named Allied Container Corporation ("ACC"). ACC was a wholly owned subsidiary of Union Bag-Camp Paper Corporation. Union Bag-Camp Paper Corporation subsequently changed its name to Union Camp Corporation ("UCC").

International Paper acquired UCC pursuant to an Agreement and Plan of Merger among Union Camp Corporation, International Paper Company and Maple Acquisition dated November 24, 1998.

- Sources:
- a. See enclosed Document #2.
 - b. Union Bag – Camp Paper Corporation "closing binders" containing documents related to the Acquisition of Stock of Allied Container Corporation, dated February 8, 1957.
 - c. Union Bag – Camp Paper Corporation "closing binder" containing documents related to the "Reorganization of Allied Container Corporation March – May 1957".
 - d. Agreement and Plan of Merger among Union Camp Corporation, International Paper Company and Maple Acquisition dated November 24, 1998.

j) If Allied Container has filed for bankruptcy, provide:

- i. the U.S. Bankruptcy Court in which the petition was filed;
- ii. the docket numbers of such petition;
- iii. the date the bankruptcy petition was filed;
- iv. whether the petition is under Chapter 7 (liquidation), Chapter 11 (reorganization), or other provision; and
- v. a brief description of the current status of the petition.

RESPONSE

International Paper is not aware of any instance where ACC filed for bankruptcy.

3. Information About Others:

- a) If you have information concerning the operation of the Site or the source, content or quantity of materials placed/disposed at the Site that is not included in the information you have already provided, provide all such information.

RESPONSE

The only information in International Paper's possession regarding Site or the source, content or quantity of materials placed/disposed at the Site is that information provided to International Paper by the U.S. EPA or by other PRPs in the context of private party litigation regarding the site styled *Unilever, Bestfoods*

et al., v. Teknor Apex Company et al., case No. C.A. No. 01-496L (Consolidated) in the U.S. District Court for Rhode Island. All documents received by International Paper are already in possession of U.S. EPA or available from other PRPs that have already been identified by U.S. EPA.

- b) If not already included in your response, if you have reason to believe that there may be persons able to provide a more detailed or complete response to any of these questions or who may be able to provide additional responsive documents, identify such persons and the additional information or documents that they may have.

RESPONSE

International Paper is not aware of any persons able to provide a more detailed or complete response to any of these questions or who may be able to provide additional responsive documents.

- c) If not already provided, identify all persons, including Respondent's current and former employees, who have knowledge or information about the generation, use, purchase, treatment, storage, disposal, placement or other handling of materials at, or transportation of materials to, the Site.

RESPONSE

International Paper is not aware of any persons, including current and former International Paper employees, who have knowledge or information about the generation, use, purchase, treatment, storage, disposal, placement or other handling of materials at, or transportation of materials to, the Site.

4. Compliance with This Request:

- a) Describe all sources reviewed or consulted in responding to this request, including but not limited to:
- i. the names of all individuals consulted;
 - ii. the current job title and job description of each individual consulted;
 - iii. the job title and job description during the period being investigated of each individual consulted;
 - iv. whether each individual consulted is a current or past employee of Respondent;
 - v. the names of all divisions of Respondent for which records were reviewed;
 - vi. the nature of all documents reviewed;
 - vii. the locations where those documents reviewed were kept prior to review; and

- viii. the location where those documents reviewed are currently kept.

RESPONSE

Individuals Consulted

Michelle Byrd

Currently employed by International Paper as Records Management Coordinator.

Roland F. Hauser

Currently employed by International Paper as Plant General Manager, Auburn Container.

Michelle R. King

Currently employed by International Paper as Paralegal - Corporate Law Group; Regional Coordinator of U.S. Subsidiaries.

Tina M. Laplante

Currently employed by International Paper as Controller, Auburn Container.

Dick Parsons

Currently employed by International Paper as Maintenance Manager, Fon du Lac Container, formerly employed at the Auburn facility with additional responsibility for the Newtown facility. Mr. Parsons did not work at the Dedham or Hyde Park facilities and has no prior knowledge of the Site.

Records

International Paper maintains a centralized corporate records management system, not a divisional system. That central records management system as well as records maintained by the Auburn facility were reviewed. Auburn had no potentially responsive documents. Documents from the central management system reviewed for potentially responsive material were requested from and returned to a facility managed by International Paper's third party records management service. Documents reviewed for potentially responsive material included tax and financial records, corporate transaction documents, historic internal UCC correspondence and miscellaneous corporate records.

Generator Section

5. Allied Container's Operations:

NOTE: All questions in this section refer to the period being investigated unless otherwise indicated.

- a) Provide the complete addresses of Allied Container's plants and other buildings or structures where Allied Container carried out its operations. Unless otherwise indicated, all following question refer to these operations.

RESPONSE

A general objection applicable to and hereby incorporated into all subsections of Request #5 is that to the extent that these Requests solicits information regarding facilities or former facilities that are geographically remote from the Site and that have not been implicated in any documentation relating to the Site or any driver statements regarding the Site the requests are burdensome, unreasonably broad and seeks information that is not reasonably relevant to the Site or International Paper's potential liability at the Site.

Further responding:

1 Allied Drive
Dedham, Mass. 02026

1 Edmond Road
Newtown, Connecticut 06470

1 Allied Road
Auburn, ME 04212

Hyde Park Avenue
Boston, Mass.

Source: a. See Document #1.
 b. Union Bag – Camp Paper Corporation "closing binder"
 containing documents related to the "Acquisition of Stock of
 Allied Container Corporation February 8, 1957".

- b) Provide a brief description of the nature of Allied Container's operations at each location including:
- i. the date such operations commenced and concluded; and

- ii. the types of work performed at each location, including but not limited to the industrial, chemical, or institutional processes undertaken at each location.

RESPONSE

See General Statement. At each location, ACC manufactured corrugated packaging (e.g. "cardboard boxes"). With respect to the period being investigated operations took place:

Hyde Park: Unknown though 1957 or 1958, on information and belief.
Dedham: From 1957 or 1958 through 1986.
Newtown: 1970 through the end of the period.
Auburn: 1974 through the end of the period.

- Sources:
- a. See enclosed Documents #1, #4, #5.
 - b. August 5, 1986 internal memorandum from M.I. Cowan (Union Camp) to J.F. Haren (Union Camp) relaying decision to close Allied Plant at Dedham.
 - c. Union Bag – Camp Paper Corporation "closing binder" containing documents related to the "Acquisition of Stock of Allied Container Corporation February 8, 1957".
 - d. Dick Parsons

- c) If the nature or size of Allied Container's operations changed over time, describe those changes and the dates they occurred.

RESPONSE

International Paper objects to this request in that the use of the terms "size" and "nature" are vague. Further answering, ACC manufactured corrugated packaging at these facilities throughout the subject period, subject to the timeframes identified in the previous response. International Paper has no further information responsive to this request.

- d) List the products Allied Container manufactured, recycled, recovered, treated, or otherwise processed in these operations.

RESPONSE

At each ACC facility, ACC manufactured corrugated packaging.

- Source:
- a. See enclosed Documents #1, #4, #5.
 - b. Dick Parsons

- c. Union Bag – Camp Paper Corporation “closing binder” containing documents related to the “Acquisition of Stock of Allied Container Corporation February 8, 1957”.

- e) In general terms, list the types of raw materials used in Allied Container's operations.

RESPONSE

Materials used in the manufacture of corrugated packaging, generally, include containerboard, cornstarch, glue and inks.

- Source:
- a. General industry knowledge.
 - b. Dick Parsons

- f) Provide copies of Material Safety Data Sheets (“MSDS”) for materials used in the Allied Container's operations.

RESPONSE

International Paper has no information responsive to this request.

- g) Describe the cleaning and maintenance of the equipment and machinery involved in these operations, including but not limited to:
 - i. the types of materials used to clean/maintain this equipment/machinery; and
 - ii. the monthly or annual quantity of each such material used.

RESPONSE

With respect to the Auburn facility, water and detergent (soap) were used to clean the equipment and machinery used its operations. International Paper has no further information responsive to this request.

- Source: Dick Parsons

- h) Describe the methods used to clean up spills of liquid or solid materials during Allied Container's operation, including but not limited to:
 - i. the types of materials spilled in Allied Container's operations;
 - ii. the materials used to clean up those spills;
 - iii. the methods used to clean up those spills; and

- iv. disposal of any materials used to clean up those spills.

RESPONSE

With respect to the Auburn facility, water, ink, cornstarch water could be spilled. An absorbent compound would be spread over the spill and then swept up and discarded in facility trash. International Paper has no further information responsive to this request.

Source: Dick Parsons

- i) Provide a schematic diagram or flow chart that fully describes and/or illustrates Allied Container's operations.

RESPONSE

International Paper has no information responsive to this request.

6. Allied Container's Wastes and Waste Streams (including By-Products):

NOTE: All questions in this section refer to the period being investigated unless otherwise indicated.

- a) Complete the enclosed "Waste Survey" (Enclosure C), checking each substance present in Allied Container's waste or by-products and providing all requested information for each such substance that is checked.

RESPONSE

A general objection applicable to and hereby incorporated into all subsections of Request #6 is that to the extent that these Requests solicit information regarding facilities or former facilities that are geographically remote from the Site and that have not been implicated in any documentation relating to the Site or any driver statements regarding the Site the requests are burdensome, unreasonably broad and seeks information that is not reasonably relevant to the Site or International Paper's potential liability at the Site. International Paper objects to the extent that the Requests solicit information regarding non-hazardous substances that are not reasonably relevant to the Site or International Paper's potential liability at the Site.

Further responding, International Paper has no information responsive to this request beyond the information provided in response to Request #5.h.

- b) For each type of waste (including by-products) from Allied Container's operations, including but not limited to all liquids, sludges, and solids, provide the following information:
- i. its physical state;
 - ii. its nature and chemical composition;
 - iii. its color;
 - iv. its odor;
 - v. the approximate monthly and annual volumes of each type of waste (using such measurements as gallons, cubic yards, pounds); and
 - vi. the dates (beginning and ending) during which each type of waste was produced by Allied Container's operations.

RESPONSE

With respect to the Auburn facility, see response to Request #5.h. Also with respect to the Auburn facility, prior to construction of its onsite wastewater treatment system, wastewater containing ink, starch, detergent and boiler blowdown water was periodically collected from an onsite collection tank by a local vacuum truck operator, possibly named "Buster Dowling." International Paper has no further information responsive to this request.

Source: Dick Parsons

- c) Provide a schematic diagram that indicates which part of Allied Container's operations generated each type of waste, including but not limited to wastes generated by cleaning and maintenance of equipment and machinery and wastes resulting from spills of liquid materials.

RESPONSE

International Paper has no information responsive to this request beyond the information provided in response to Requests #5.h. and #6.b.

- d) Identify (see Definitions) the person(s) responsible for collecting and managing each type of waste.

RESPONSE

International Paper has no information responsive to this request.

- e) Describe how each type of waste was collected and stored at Allied Container's operation prior to disposal/recycling/sale/transport, including:

- i. the type of container in which each type of waste was placed/stored; and
- ii. where each type of waste was collected/stored.

RESPONSE

International Paper has no information responsive to this request beyond the information provided in response to Request #6.b.

- f) For the following questions, please refer to Attachment No. 1, which includes interview summaries of former Goditt & Boyer drivers demonstrating that waste was transported from Allied Container's facility to the J.M. Mills Landfill. Please provide the following information:
- i. the chemical composition and characteristics of any liquid cyanide waste;
 - ii. the volume of liquid cyanide waste disposed of annually (e.g., gallons, cubic yards, pounds); and
 - iii. the nature and chemical composition of any other waste materials that were added to the liquid cyanide waste prior to disposal.

RESPONSE

International Paper objects to U.S. EPA's characterization of the document attached as Attachment No. 1 to the Request as a "summary". Attachment No. 1 contains one row of a table without any context. Further answering, International Paper has no information responsive to this request, is unaware of any use of liquid cyanide by ACC, and is unaware of any waste generated by ACC that may have contained liquid cyanide.

- g) Referring again to Attachment No. 1, please define and explain the following;
- i. the chemical composition and characteristics of glue waste;
 - ii. the volume of glue waste disposed of annually (e.g., gallons, cubic yards, pounds); and
 - iii. the nature and chemical composition of any other waste materials that were added to the glue waste prior to disposal.

RESPONSE

International Paper objects to U.S. EPA's characterization of the document attached as Attachment No. 1 to the Request as a "summary". Attachment No. 1 contains one row of a table without any context. Further answering, International Paper has no information responsive to this request.

- h) Referring again to Attachment No. 1, please define and explain the following:
- i. the chemical composition and characteristics of embalming fluid waste;
 - ii. the volume of embalming fluid waste disposed of annually (e.g., gallons, cubic yards, pounds); and
 - iii. the nature and chemical composition of any other waste materials that were added to the embalming fluid waste prior to disposal.

RESPONSE

International Paper objects to U.S. EPA's characterization of the document attached as Attachment No. 1 to the Request as a "summary". Attachment No. 1 contains one row of a table without any context. Further answering, International Paper has no information responsive to this request, is unaware of any use of embalming fluid by ACC, and is unaware of any waste generated by ACC that may have contained embalming fluid.

7. Allied Container's Disposal/Treatment/Storage/Recycling/Sale of Waste (including By-Products):

NOTE: All questions in this section refer to the period being investigated unless otherwise indicated.

- a) Identify (see Definitions) all individuals who have had responsibility for the disposal, treatment, storage, recycling, or sale of Allied Container's wastes.

RESPONSE

A general objection applicable to and hereby incorporated into all subsections of Request #7 is that to the extent that these Requests solicits information regarding facilities or former facilities that are geographically remote from the Site and that have not been implicated in any documentation relating to the Site or any driver statements regarding the Site the requests are burdensome, unreasonably broad and seeks information that is not reasonably relevant to the Site or International Paper's potential liability at the Site. Further responding, International Paper has no information responsive to this request.

- b) Identify (see Definitions) all individuals who have had knowledge of the disposal/treatment/storage/recycling/sale of Allied Container's wastes.

RESPONSE

International Paper has no information responsive to this request.

- c) Identify (see Definitions) all individuals who have had responsibility for Allied Container's environmental matters.

RESPONSE

International Paper objects to the use of the vague term "environmental matters" in this Request. International Paper has no information responsive to this request.

- d) For the previous three responses, also provide each individual's:

- i. job title;
- ii. duties;
- iii. dates performing those duties;
- iv. supervisors for those duties;
- v. current position or, if such individual is no longer employed by Allied Container, the date of the individual's resignation; and
- vi. the nature of the information possessed by such individuals concerning Allied Container's waste management.

RESPONSE

No response required.

- e) Describe the containers used to take each type of waste from Allied Container's operation, including but not limited to:

- i. the type of container (e.g., 55-gallon drum, dumpster);
- ii. the colors of the containers;
- iii. any distinctive stripes or other markings on those containers;
- iv. any labels or writing on those containers (including the content of those labels);
- v. whether those containers were new or used; and
- vi. if those containers were used, a description of the prior use of the containers.

RESPONSE

International Paper has no information responsive to this request.

- f) For each type of waste describe Allied Container's contracts, agreements, or other arrangements for its disposal, treatment, or recycling.

RESPONSE

International Paper has no information responsive to this request.

- g) Provide copies of such contracts and other documents reflecting such agreements or arrangements.

RESPONSE

International Paper has no information responsive to this request.

- h) State where Allied Container sent each type of its waste for disposal, treatment, or recycling.

RESPONSE

With the exception of the J.M. Mills landfill tickets provided to International Paper by U.S. EPA, International Paper has no information responsive to this request.

- i) Identify (see Definitions) all entities and individuals who picked up waste from Allied Container or who otherwise transported the waste away from Allied Container's operations (these companies and individuals shall be called "Waste Carriers" for purposes of this Information Request).

RESPONSE

With the exception of information set forth in the document attached as Attachment No. 1 to the Request and the information provided in response to Request #6.b. International Paper has no information responsive to this request.

- j) If Allied Container transported any of its wastes away from its operations, please so indicate and answer all questions related to "Waste Carriers" with reference to Allied Container's actions.

RESPONSE

With the exception of information set forth in the document attached as Attachment No. 1 to the Request and the information provided in response to Request #6.b. International Paper has no information responsive to this request.

- k) For each type of waste specify which Waste Carrier picked it up.

RESPONSE

With the exception of information set forth in the document attached as Attachment No. 1 to the Request and the information provided in response to Request #6.b. International Paper has no information responsive to this request.

- l) For each type of waste, state how frequently each Waste Carrier picked up such waste.

RESPONSE

International Paper has no information responsive to this request.

- m) For each type of waste state the volume picked up by each Waste Carrier (per week, month, or year).

RESPONSE

International Paper has no information responsive to this request.

- n) For each type of waste state the dates (beginning and ending) such waste was picked up by each Waste Carrier.

RESPONSE

International Paper has no information responsive to this request.

- o) Provide copies of all documents containing information responsive to the previous seven questions.

RESPONSE

With the exception of information set forth in the document attached as Attachment No. 1 to the Request and the J.M. Mills landfill tickets provided to International Paper by U.S. EPA, International Paper has no information responsive to this request.

- p) In reference to Attachment No. 2, which includes dump receipts demonstrating that Allied Container's waste was transported by Goditt & Boyer to the J.M. Mills Landfill. Please provide the following information:

- i. kinds of waste hauled by Goditt & Boyer from Allied Container's facility (i.e., chemical composition of waste disposed);

- ii. total number of years Goditt & Boyer transported waste from Allied Container's facility; and
- iii. any waste disposal contracts between Goditt & Boyer and Allied Container.

RESPONSE

International Paper objects to U.S. EPA's characterization of what the documents enclosed as Attachment No. 2 to the Request may "demonstrate". With the exception of information set forth in the document attached as Attachment No. 1 to the Request and the J.M. Mills landfill tickets provided to International Paper by U.S. EPA, International Paper has no information responsive to this request.

- q) Indicate the ultimate disposal/recycling/treatment location for each type of waste.

RESPONSE

International Paper has no information responsive to this request.

- r) Provide all documents indicating the ultimate disposal/recycling/treatment location for each type of waste.

RESPONSE

With the exception of the J.M. Mills landfill tickets provided to International Paper by U.S. EPA, International Paper has no information responsive to this request.

- s) State the basis for and provide any documents supporting the answer to the previous question.

RESPONSE

The answer to the previous question requires no explanation.

- t) If not already provided, specify the dates and circumstances when Respondent's waste was taken to the Site, and identify the companies or individuals who brought Respondent's waste to the Site. Provide all documents which support or memorialize your response.

RESPONSE

With the exception of information set forth in the document attached as Attachment No. 1 to the Request and the J.M. Mills landfill tickets provided to International

Paper by U.S. EPA, International Paper has no information responsive to this request.

8. Respondent's Environmental Reporting:

NOTE: All questions in this section refer to the period being investigated and the last ten years unless otherwise indicated.

- a) Provide all Resource Conservation and Recovery Act ("RCRA") Identification Numbers issued to Respondent by EPA or a state for Allied Container's operations.

RESPONSE

A general objection applicable to and hereby incorporated into all subsections of Request #8 is that to the extent that these Requests solicits information regarding facilities or former facilities that are geographically remote from the Site and that have not been implicated in any documentation relating to the Site or any driver statements regarding the Site the requests are burdensome, unreasonably broad and seeks information that is not reasonably relevant to the Site or International Paper's potential liability at the Site. Further responding, International Paper has no information responsive to this request.

- b) Identify (see Definitions) all federal offices to which Allied Container has sent or filed hazardous substance or hazardous waste information.

RESPONSE

International Paper has no information responsive to this request.

- c) State the years during which such information was sent/filed.

RESPONSE

International Paper has no information responsive to this request.

- d) Identify (see Definitions) all state offices to which Allied Container has sent or filed hazardous substance or hazardous waste information.

RESPONSE

International Paper has no information responsive to this request.

- e) State the years during which such information was sent/filed.

RESPONSE

International Paper has no information responsive to this request.

- f) List all federal and state environmental laws and regulations under which Allied Container has reported to federal or state governments, including but not limited to: Toxic Substances Control Act, 15 U.S.C. §§ 2601 et seq., ("TSCA"); Emergency Planning and Community Right-to-Know Act, 42 U.S.C. §§ 1101 et seq., ("EPCRA"); and the Clean Water Act (the Water Pollution Prevention and Control Act), 33 U.S.C. §§ 1251 et seq.,

RESPONSE

International Paper has no information responsive to this request.

- g) Identify (see Definitions) the federal and state offices to which such information was sent.

RESPONSE

International Paper has no information responsive to this request.

9. Storage, Consolidation or Transfer:

NOTE: All questions in this section refer to the period being investigated unless otherwise indicated.

- a) If Allied Container did not bring all materials directly to the Site (*i.e.*, materials were stored, treated, consolidated, transferred or held at other locations prior to final disposal/placement at the Site), provide:
- i. the name and address of the other locations;
 - ii. a description of the nature of operations at such other locations;
 - iii. the identity of (see Definitions) the individuals and entities who operate such other locations;
 - iv. a description of the kinds of materials taken to those locations;
 - v. a description of the quantities of materials taken to those locations;
 - vi. a description of the process(es) the materials underwent at each such location (e.g., storage, consolidation, treatment); and
 - vii. a description of how long wastes remained at each such location before being taken to the Site.

RESPONSE

A general objection applicable to and hereby incorporated into all subsections of Request #9 is that to the extent that these Requests solicits information regarding facilities or former facilities that are geographically remote from the Site and that have not been implicated in any documentation relating to the Site or any driver statements regarding the Site the requests are burdensome, unreasonably broad and seeks information that is not reasonably relevant to the Site or International Paper's potential liability at the Site. International Paper objects to the extent that this Request assumes Allied Container material was disposed of at the Site. International Paper has no information responsive to this request.

10. With specific reference to Enclosure C of this letter, please provide the following:

- a) Any and all information concerning the Waste Types identified on Enclosure C including, but not limited to, total volume(s) disposed, the duration of time during which each Waste Type was disposed at the Site, physical state(s)/characteristic(s), method(s) of containing, shipping and disposing, leachability, corrosivity, and toxicity of each Waste Type so identified.

RESPONSE

International Paper has no information responsive to this request.

- b) Copies of all documents the Respondent has in its possession and which the Respondent referred to in response to Enclosure C.

RESPONSE

International Paper has no information responsive to this request.

- c) Identify (see Definitions) any/all individuals and entities that Respondent has reason to believe may have arranged for, shipped, taken or sent these specific Waste Types to the Site for disposal.

RESPONSE

The only information in International Paper's possession regarding Site or individuals and entities that may have arranged for, shipped, taken or sent these specific Waste Types to the Site for disposal is that information provided to International Paper by the U.S. EPA or by other PRPs in the context of private party litigation regarding the site styled *Unilever, Bestfoods et al., v. Teknor Apex Company et al.*, case No. C.A. No. 01-496L (Consolidated) in the U.S. District

Court for Rhode Island. All documents received by International Paper are already in possession of U.S. EPA or available from other PRPs that have already been identified by U.S. EPA.

- d) Provide copies of all tests, analyses, and analytical results, shipping invoices, manifests or other tracking report(s) concerning each material Allied Container generated for disposal at the Site as indicated by Enclosure D.

RESPONSE

International Paper objects to the extent that this Request assumes Allied Container material was disposed of at the Site. Enclosure D is a "list of names and addresses of Potentially Responsible Parties to whom this notification was provided." Further responding, International Paper has no information responsive to this request.

- f) If you do not have documents responsive to the previous question but believe others do (e.g., transporters), identify who might have such documents and the basis for such a belief.

RESPONSE

International Paper has no reason to believe that others may have documents responsive to the previous question.

Document 1

ALLIED CONTAINER CORPORATION

We've got a good
thing growing...

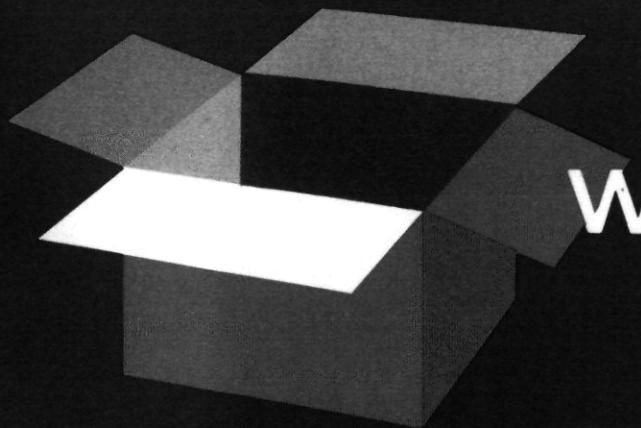

Joseph Schwartz, President of Allied Container Corporation

"When you've got a sell-out, what do you do for an encore? You repeat the performance!"

That quotation probably came from *Show Business*, but it certainly applies to Allied Container Corporation. After outgrowing two locations, we built our Dedham plant—largest in New England—but in spite of its size, we sold it out. So to assure service to our customers we went ahead and built another plant in Newtown, Connecticut. It was a repeat performance! Now with two plants filled to capacity we're opening a new one in Auburn, Maine. With your help, we'll soon have another sell-out. Over the years people have appreciated the combination of quality, dependability and service they get when doing business with Allied Container. And we think that once you've given us a chance to serve you, you'll agree that "we've got a good thing growing".

Joseph Schwartz

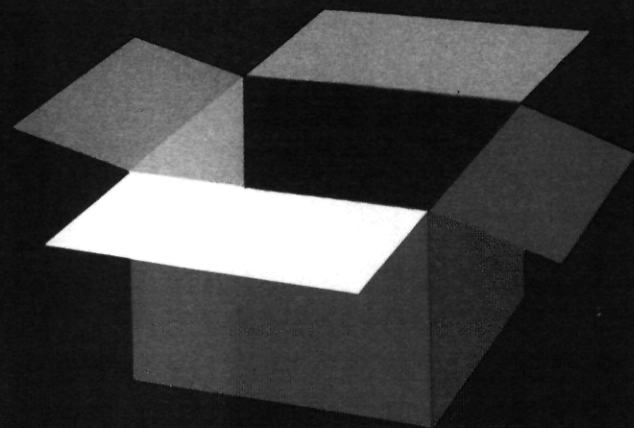

We've got a good thing growing...

Allied Container Corporation has been supplying corrugated boxes for over 35 years. During that time we've had to keep growing to stay in pace with the increasing needs of the many industries we serve. This booklet's purpose is to bring you up-to-date on the latest chapter in that growth, as well as provide a capsule view of our company and some of the people who make it go.

New England and Eastern New York are growing industrial areas that demand the best in packaging service. Allied Container is committed to keep on providing that service. If you find this booklet interesting and would like to learn more about Allied, please give us a call. We'll be happy to show you why "we've got a good thing growing".

Bill Hampton, Vice President, Sales
Irving Schwartz, Executive Vice President and Chief Operating Officer
Metin Hamarat, Vice President and General Manager

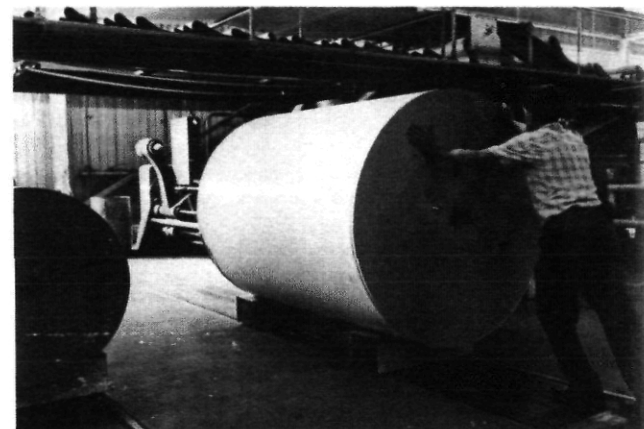

Dedham, Massachusetts

One of the biggest...
one of the best.

Allied Container's Dedham operation is the largest corrugated box plant in New England and the fourth largest in the country. Here over a billion square feet of corrugated product is shipped every year. We literally manufacture boxes by the millions.

Completed in 1958, the original 190,000 square foot plant has since been expanded on two separate occasions to its present size of over 320,000 square feet. The Dedham plant has been testimony to the fact that a high-volume, high-efficiency operation can maintain top quality throughout its product line. Because of its size and broad range of production equipment, the Dedham plant is also one of the most flexible in the country. We make boxes of every size and configuration for a wide spectrum of end uses.

Whatever your packaging needs, it's a good bet we can turn it out at our Dedham plant.

In spite of the plant's size, no Dedham customer ever gets lost in the shuffle. We have more than enough salesmen and sales service people to assure that each customer gets personalized treatment and that his every order is expedited right through delivery.

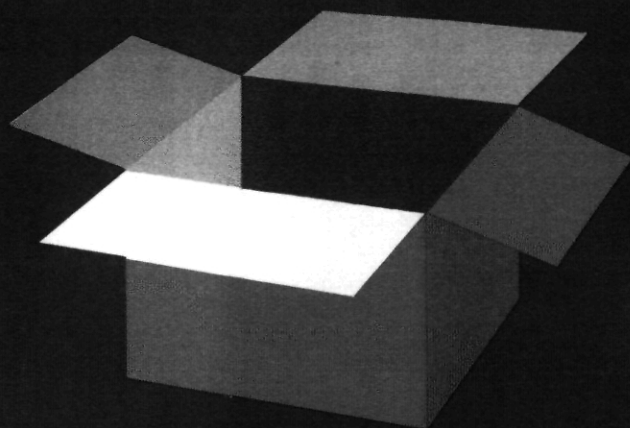

Al McLaughlin, Sales Service Manager
 Bill Wadel, Comptroller
 Herman Jaffe, Vice President, Food Packaging Sales

Tony Shuman, Chief Engineer
 George Gambale, Manager, Industrial Relations
 Chuck Dunn, Chief Package Designer

Jerome Pinckney, Vice President, Manufacturing
 Bud Carpenter, Manufacturing Manager
 Jim Fitzpatrick, Planning & Shipping Supervisor

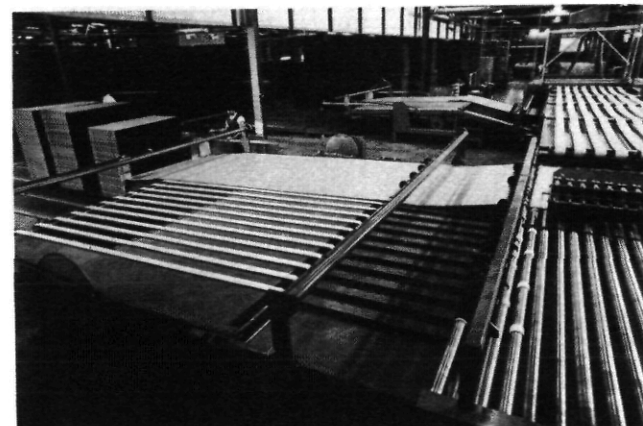

Newtown, Connecticut

A key plant...in a key spot.

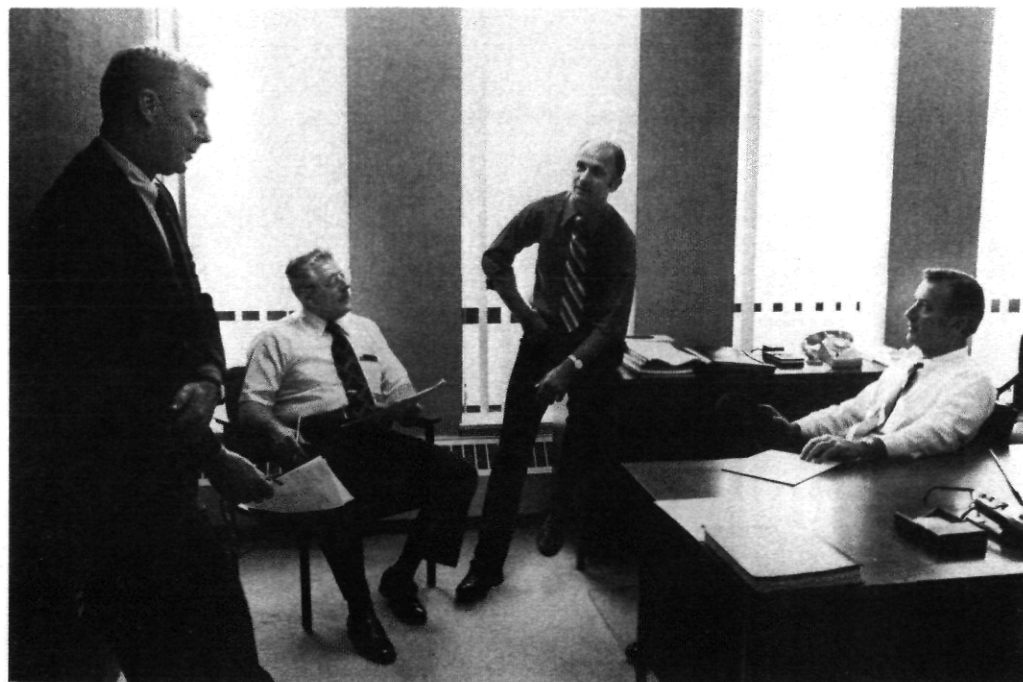

Our Newtown plant is indeed a key installation as it is in a perfect position to serve both Southern New England, New York City, Eastern New York State and North Central Pennsylvania.

Allied opened the Newtown facility in 1970 when our increasing business made it difficult for the Dedham plant to adequately serve our customers in this area. By maintaining the Allied formula of quality boxes backed up by dependable delivery and comprehensive service, the Newtown plant became an immediate success.

Newtown has broad packaging capabilities and can produce just about

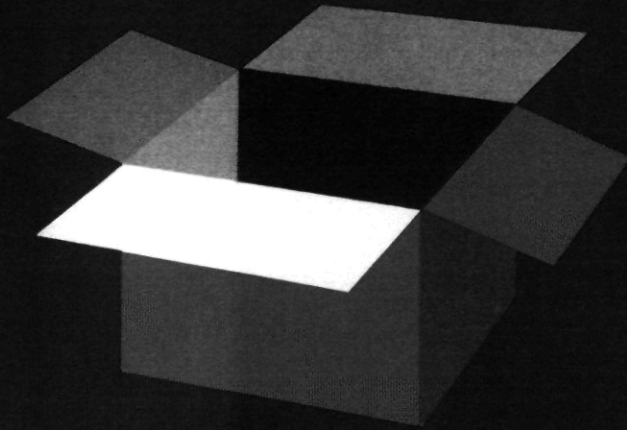

any type of box required by manufacturers in its market area. Experienced personnel working with modern equipment keep production efficiently high and our Newtown customers satisfied.

Bob Seick, Sales Representative
 Fred Freeman, Plant Accountant
 Terry Johanesen, Sales Service Manager
 Bob McGuire, Sales Manager

Pat Patrick, Plant Superintendent
 Butch Williamson, Manufacturing Manager
 Bob Siwik, Planning & Shipping Supervisor

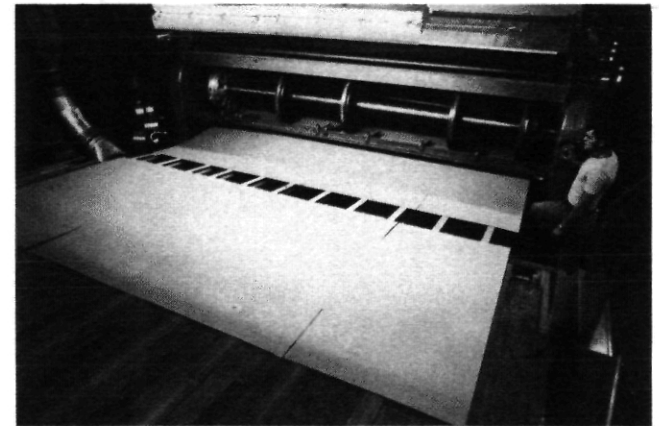

Auburn, Maine

Ready, willing and able...

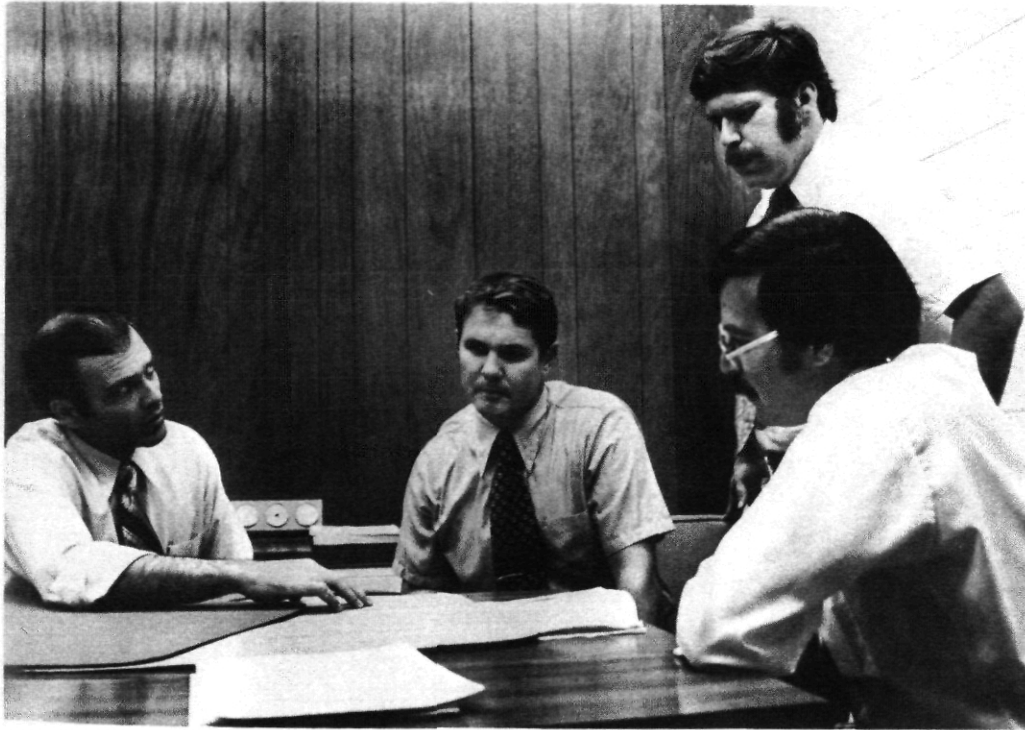

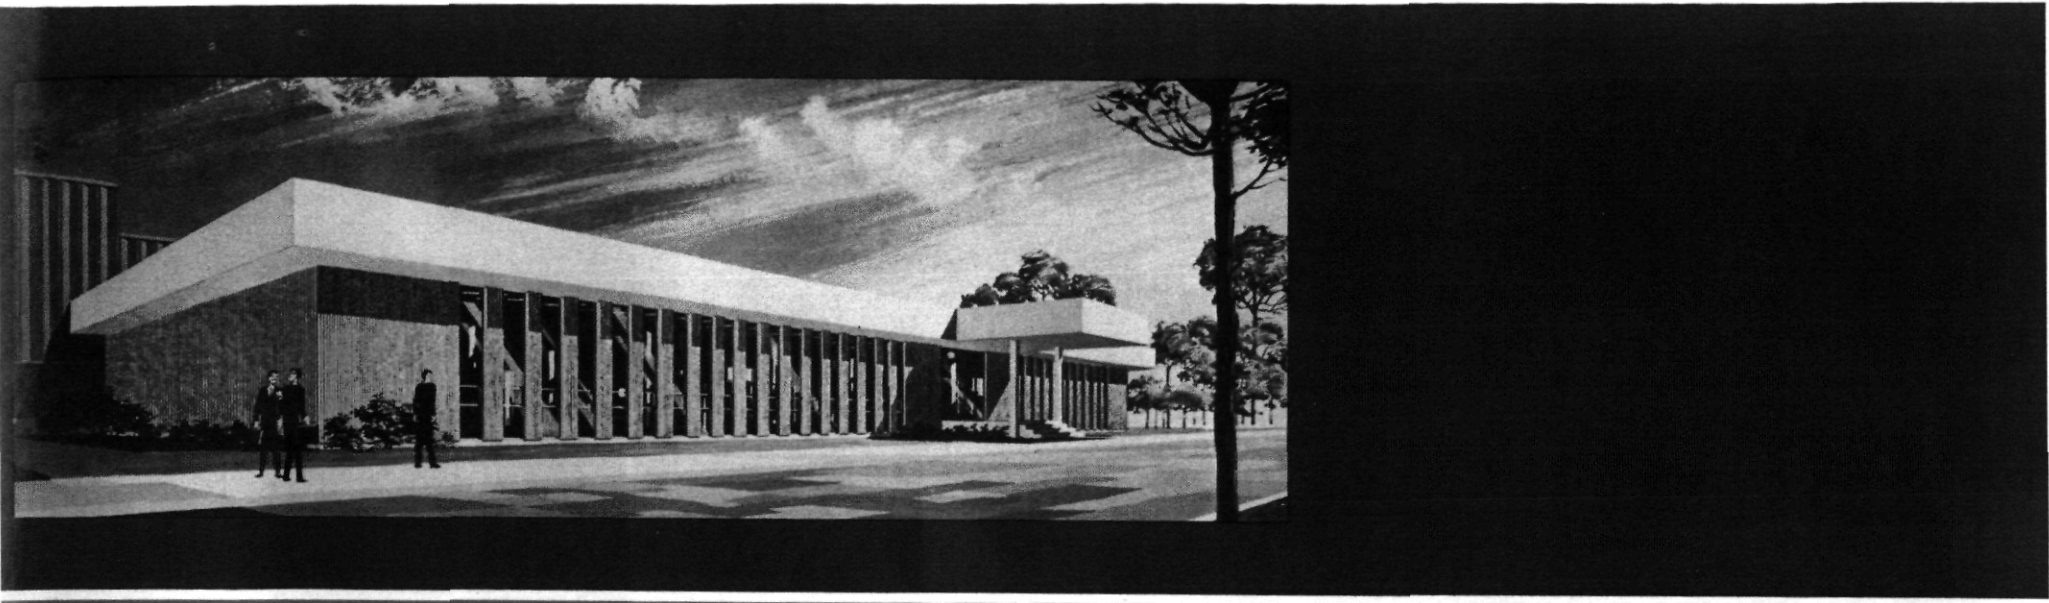

Auburn, newest member of the Allied family, came into existence because we needed more production capacity to service our many customers in Northern New England.

It is a modern, high efficiency plant especially geared to handle the needs of the area it serves. The most up-to-date production methods and machinery will be supervised by experienced management personnel drawn from within the Allied organization.

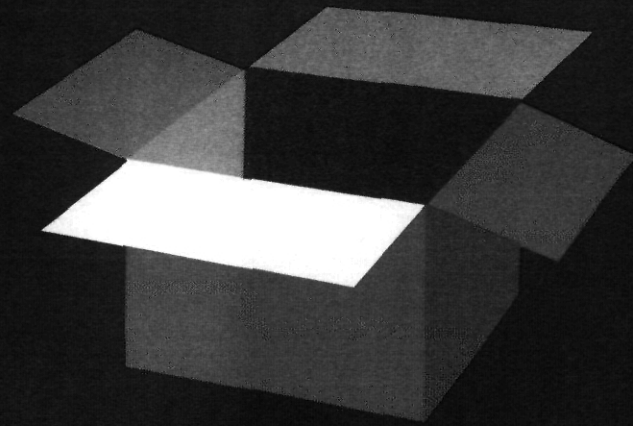

The new Auburn plant gives us the opportunity to introduce ourselves to many shippers who may not be

familiar with Allied Container and its reputation for quality, dependability and service. It's to these people especially, that we would like a chance to demonstrate just why "we've got a good thing growing".

Yagiv Kadar, Plant General Manager
Tom Knight, Plant Accountant
Larry Eaton, Planning & Shipping Supervisor
Hank Mastrianno, Sales Service Manager

Here are some
of the reasons why...
"we've got a good
thing growing."

Allied Container didn't become number one in New England just by putting up buildings. We have consistently offered our customers the very best in corrugated packaging... in terms of both the product they receive and the service that backs it up.

One big plus for our customers is the relative proximity of our plants. If an emergency should occur at one facility we can assure delivery by shipping from another. This kind of dependability is hard to beat.

Allied Container is a wholly-owned subsidiary of Union Camp Corporation, one of the nation's largest producers of linerboard. If you wish to see for yourself just why "we've got a good thing growing", please give us a call. A list of people who can help you is on the facing page.

UNION BAG-CAMP PAPER

CORPORATION

ANNUAL REPORT FOR THE YEAR ENDED DECEMBER 31, 1957

ent machines at Franklin, Virginia, were overhauled and modernized. New construction projects at both Franklin and Savannah are progressing according to schedule. These include an additional paper machine at each location and a new hardwood pulp mill at Savannah. Upon their completion early in 1959 and 1960 respectively, our productive capacity will be increased approximately 25 per cent.

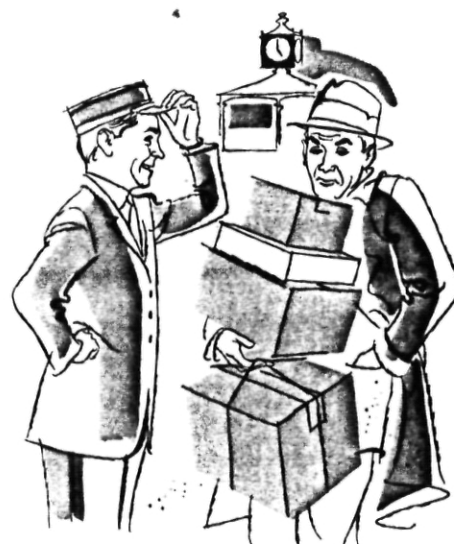

In February 1957 we acquired Allied Container Corporation, Boston, Mass., producer of corrugated boxes, to give us an outlet in New England. During the year this operation was moved to a

new, larger plant erected in Dedham, Mass., on the outskirts of Boston.

RESEARCH

In 1957 our research organization was enlarged, reflecting the increasing importance of new market and product development.

During the year, our product development group was responsible for introducing several award winning packages in the produce, meat and poultry industries. A new, enlarged research and development laboratory is being established in Hoboken, New Jersey. When completed, it will be among the best equipped and staffed within the industry.

**After printing this label:**

1. Use the 'Print' button on this page to print your label to your laser or inkjet printer.
2. Fold the printed page along the horizontal line.
3. Place label in shipping pouch and affix it to your shipment so that the barcode portion of the label can be read and scanned.

Warning: Use only the printed original label for shipping. Using a photocopy of this label for shipping purposes is fraudulent and can result in additional billing charges, along with the cancellation of your FedEx account number.

Use of this system constitutes your agreement to the service conditions in the current FedEx Service Guide, available on fedex.com. FedEx will not be responsible for any claim in excess of \$100 per package, whether the result of loss, damage, delay, non-delivery, misdelivery or misinformation, unless you declare a higher value, pay an additional charge, document your actual loss and file a timely claim. Limitations found in the current FedEx Service Guide apply. Your right to recover from FedEx for any loss, including intrinsic value of the package, loss of sales, income interest, profit, attorney's costs, and other forms of damage whether direct, incidental, consequential, or special is limited to the greater of \$100 or the authorized declared value. Recovery cannot exceed actual documented loss. Maximum for items of extraordinary value is \$500, e.g. jewelry, precious metals, negotiable instruments and other items listed in our Service Guide. Written claims must be filed within strict time limits, see current FedEx Service Guide.
